

Draft Strategic Housing Land Availability Assessment Further Evidence Sheet

Please read this sheet carefully before providing your information or evidence. You can also use the website to provide information at www.westnorthamptonshirejpu.org

The West Northamptonshire Joint Planning Unit is seeking further evidence about the sites that have been identified in the draft publication – we want to check the technical assessments of the strategic housing sites that have been put forward in West Northamptonshire. The draft Strategic Housing Land Availability Assessment shows that there are sufficient sites to deliver the 48,344 dwellings, therefore further submission of sites is not encouraged at this stage.

Please **DO NOT** make any general or policy related comments on sites. Any such comments will be marked as "Not Relevant" and will be discounted from the assessment.

There will be opportunities to view and comment on policy considerations through future consultation exercise(s) on any proposed land allocations, once all the technical evidence has been evaluated.

How to provide information or evidence

To help ensure that your information or evidence is recorded against the correct site location it is important that you provide us with as much information about the site as you can.

It is also important to provide us with your contact details so that we can reference your response and contact you if we wish to clarify any of the information you provide.

Please photocopy the form if you wish to submit information or evidence for more than one site.

What we will do with your information

All the information and evidence received on the draft Strategic Housing Land Availability Assessment will be made **publicly available**. Paper copies will be available at the West Northamptonshire Joint Planning Unit Offices.

Information and evidence may also be made available electronically. If so, the personal contact details of individuals will be blanked out but we may use your name. The contact information for organisations will not be blanked out.

You will be automatically informed when the final Strategic Housing Land Availability Assessment is made available. **Unless you tick the box overleaf you will not be added to our consultation database.**
